

Descriptionn:

Floor bench made of 30x30 and 60x20 cold-formed steel profiles for the seat. Fully welded joint structure, giving it great strength and consistency. It is provided with a galvanized treatment to be able to withstand the most adverse weather conditions outside.

In addition, it is also provided with a treatment of oven-fired paint, 100% polyester (color to choose from).

End caps for all profile ends.

It is manufactured in different bench lengths.
